

CANCEL "OUTLAW" TRADE EXPATRIATES' CITIZENSHIP

Drys Would Make American Who
Goes Abroad in Liquor Business
Man Without Country.

[By Associated Press.]

WASHINGTON, Sept. 25.—Resolutions demanding that Congress enact laws providing for the canceling of the citizenship of Americans who go to foreign countries to engage in business outlawed in this country were adopted today by the American section of the World Prohibition Federation, meeting here in conjunction with the International Congress Against Alcoholism.

"Another resolution adopted by the world federation warned foreign prohibition advocates to avoid the many delays which attended the fight for prohibition here. The resolution pointed out that scores of different methods of ending the sale of liquor had been tried in various parts of this country, but that the only effective method was State and national constitutional prohibition."

On Mount Vernon Pilgrimage.

Delegates to the International Congress Against Alcoholism made a pilgrimage today to Mount Vernon, leaving for Washington's home at the close of the morning session, which was devoted chiefly to reports on the progress of the antiliquor movement in Mexico and Central and South America.

"Discussion of the scientific phase of alcoholism was completed at today's single session. Final sessions of the congress will be held tomorrow, at which speakers will include Richmond Pearson Hobson, Governor Milliken, of Maine, and Senator Kenyon, of Iowa."

Richmond Pearson Hobson placed before the congress at today's sessions resolutions intended to aid the advocates of the world prohibition. The congress, being unauthorized to act, referred the resolutions to the international committee, which governs its sessions. Mr. Hobson, in his resolutions, urged the application of the "serum of education" to the anti-prohibitionists of countries, where the campaign of education is the best method for dyes in other countries to use. Introduction of the resolutions followed their adoption by the executive committee of the World Prohibition Federation which met here in connection with the congress. Committees from the Women's Christian Temperance Union and the World League Against Alcoholism, Mr. Hobson said, were giving the proposals consideration.

LADY NANCY ASTOR JUMPS GATE AT SCOUT RECEPTION

Former Virginia Girl Boldly Clears
Barriers When Told She Would
Have to Go Round.

[By Cross-Atlantic Service.]
LONDON, Sept. 25.—London is still talking of an amazing feat accomplished by Lady Nancy Astor, while the Boy Scouts were here. She was a guest at the Washington Inn, the well-known hospitality center for Americans in London. At a reception to the American branch of the International Boy Scouts' Jam, bore, and had been given "three cheers and a tiger," as well as hearing the song, "Way Down in Old Virginia" (Virginia is her native State), played in her honor.

She was leaving the Inn, escorted by members of the committee, when it was found that the big side gate in the six-foot fence was locked.

"You will have to go round," said a member of the committee, but Lady Astor exclaimed, "I will now teach you how to vault or climb over a fence in case we have another war."

Gathering her skirts together she leaped lightly and cleared the gate, a feat of which any of the youthful Scouts present would have been proud. The approving howl that went up from those present was heard all over the neighborhood.

GERMAN NATIONAL DEBT IS 416 BILLION MARKS

Berliner Tageblatt Says Smaller
Sums Recently Announced
Are Incorrect.

[By Universal Service.]

BERLIN, Sept. 25.—Germany's national debt aggregates 416,000,000,000 marks and not 245,000,000,000 as announced by Finance Minister Wirth, the Berliner Tageblatt announced today coincident with the opening of the financial conference at Brussels.

This does not include the communal municipal obligations.

"Even a partial collection of the Reichssteuer (emergency capital and capital property tax), says the Tageblatt in comment on the forced loan, 'can do no more than slow down the depressive tendencies. It cannot check them. The money press will have to continue to work day and night to provide the money for the national expenditures.'"

In commenting on the 72,000,000,000-mark circulation of paper money the newspaper says:

"This cannot continue. Is there a radical remedy? With a determined grip is national bankruptcy possible? No. Some states like Greece, Portugal and Mexico formerly took refuge in that procedure." It then points out that national bankruptcy would mean the utter ruin of hundreds of thousands of the lower and middle class people through the destruction of the savings banks filled with war loans and other state obligations.

WOULD CALL 2D SESSION IF BODY FAILS IN CRISIS

Alabama Governor Issues Ultimatum
to Legislature to Force Passage
of Coal Measure.

[By Associated Press.]

MONTGOMERY, Sept. 25.—Declaring he would have no hesitancy in calling another extraordinary session of the Legislature, if that body adjourned sine die without enacting legislation to meet the coal crisis confronting Alabama, Governor Kilby late today addressed a message to two houses submitting an agreement proposed by the coal operators by which they pledge themselves under supervision to supply coal to industries and householders at certain fixed prices.

Approximately 100,000 tons of coal per month were pledged the State for distribution at prices to be fixed by a fuel administrator and pledges of operators en route here tonight were expected to nearly double that amount. Prices at which the coal operators would sell their product at the mine ranged from \$2.50 mine run to \$5 for fancy lump for domestic use. The pledge would be in force during the present emergency, and at any other crisis up to February 1, 1921.

In transmitting a copy of this agreement the Governor declared he expected to determine a reasonable spread between the dealer and ultimate consumer. The agreement, he said, was a "quieting effect" and he believed that further fatal conflicts may be avoided.

"There is, however," he said, "an undecurrent of a financial feeling evident to observers who report to me frequently and the State is still called on to take cognizance of the situation."

Company C, Selma, Ala., of the state militia establishment, entrusted for the mineral region this afternoon upon orders from the commander of the militia, General Robert E. Steiner, for strike duty in Walker and Jefferson counties. In announcing the mobilization of the company, the sixth to be sent into the mining district, State officials said no emergency had arisen, necessitating the action, but that an undecurrent of intense feeling was still manifested in some sections, and it was to be prepared for any emergency that the additional troops were ordered out.

will be prepared for any emergency that the additional troops were ordered out.

Will Debate Political Question.
Debate on the principles embodied in the Cox and Harding platforms, will feature the first regular meeting of the Philologist Literary Society of Richmond College Monday night. The alternative side of this question will be held by Dr. F. Lee.
